GENERAL INFORMATION

The Coronavirus Protection Ordinance of the German State of North Rhine-Westphalia lays down rules for the realisation of trade fairs. An essential part of these rules is the need to maintain a minimum distance of 1.5 metres throughout the entire trade fair grounds.

Koelnmesse deploys an extensive concept for hygiene and infection protection to ensure compliance with the rules on hygiene and safety in effect at all of the events it organises. You will find the main measures on our website [#B-SAFE4business](#). As a result, we are ready to carry out our trade fairs from September 2020 onwards and look forward to offering our customers a platform for their business once again.

It is important for exhibitors to know that there are no limits on the number of visitors to individual stands, as long as visitors and exhibitor staff maintain a minimum distance of 1.5 metres at the trade fair stand. Brief distances of less than this minimum are permitted (e.g. when passing by each other) as long as the individuals involved are wearing mouth-nose protection. Consequently, the maximum number of stand visitors is largely a function of the type of stand design involved.

Each stand operator will be responsible for implementing the necessary measures at the trade fair stand. We are aware of the current uncertainties on the part of exhibitors and have thus summarised important recommendations or binding measures to assist you with your trade fair planning and presentation. You are kindly requested to direct any further questions you may have to your contact on the respective trade fair team.

HYGIENE RECOMMENDATIONS AND SPECIFICATIONS FOR TRADE FAIR STANDS

- 1 In the interest of the health of all trade fair participants, please ensure that your stand complies with the generally applicable hygiene regulations - including refraining from shaking hands or making physical contact. In this connection, please refer to the general hygiene recommendations of the Robert Koch Institute (RKI).
- 2 Equip your trade fair stand with disinfectant for your staff and visitors. Koelnmesse can assist you with this.
- 3 Clean high-traffic contact surfaces such as counters, tables, showcases or exhibits as needed, or after a visitor left the stand.
- 4 Issuing candy or other give-aways to all stand visitors from large containers is prohibited at this point in time. Items may be handed out by stand staff as long as the hygiene regulations are observed.
- 5 The wearing of mouth-nose protection is mandatory at the stands as well as throughout the trade fair grounds during the complete duration of stay. This requirement does not extend to the outdoor grounds, or to seats at the stands or in food service - as long as sufficient distance can be maintained.
- 6 Please make sure that only staff who are free from cold symptoms are employed at your stand.
- 7 Unfortunately stand parties or comparable activities are currently not permitted, as the hygiene rules that generally apply cannot be complied with.
- 8 The hygiene measures taken at your trade fair stand must be documented as part of a hygiene concept. The concept must designate a person at the trade fair stand who is also responsible for implementing the concept.

RECOMMENDATIONS AND SPECIFICATIONS FOR STAND CONSTRUCTION AT ART FAIRS

- 1 Plan your stand layout to make it spacious enough that minimum distancing can be ensured for any activities at the stand. Avoid unnecessary narrow sections.
- 2 Please choose seating distances between tables and chairs such that a minimum distance between persons of at least 1.5 metres can be ensured.
- 3 If there are individual points where this minimum distance cannot be maintained, other measures can also be taken, such as shielding in seating areas, for example.
- 4 Monitoring the numbers of visitors and staff may be difficult in the case of larger or complex exhibition stands. For cases such as these, then, plan separate entrances and exits and shields around the stand (e.g. retracting belt separators) to keep an eye on the numbers of visitors and ensure minimum distancing.
- 5 Place any sculptures or free hanging objects with sufficient space around them.
- 6 Because traffic needs to be able to flow freely in the aisles around the stand, any displays of product information directly where the stand boundary meets the aisle may only be possible to a limited extent. Please factor this into your stand planning.
- 7 An essential criterion at the moment is good ventilation of the trade fair stands. The exhibition halls in Cologne feature state-of-the-art ventilation, with separate supply and exhaust air. To ensure that this true of your trade fair stand, too, closed spaces with closed ceilings - especially video cabins - are not permitted.

INFORMATION ON CATERING SERVICE AT THE TRADE FAIR STANDS

1

Please consider the general hygiene requirements when serving and storing food as well as drinks.

2

You can continue working with a caterer of your choosing, provided the regulations for food-service establishments are observed in accordance with the Coronavirus Protection Ordinance of the German State of North Rhine-Westphalia.

3

Catering offers featuring an open buffet and/or self-service are currently not permitted. The same holds true for open containers for sweets, cutlery or the like.

4

Koelnmesse and the Koelnmesse caterer under contract, Aramark Restaurants GmbH, will be happy to offer you catering that meets hygiene requirements at your stand. If you are interested in our food service, please contact our partner Aramark:
(phone: [+49 \(0\)211/2212848584](tel:+49(0)211/2212848584) e-mail: Vertrieb.Koelnmesse@aramark.de).

Please note that Koelnmesse cannot approve plans with regard to infection protection. Infection protection at your stand remains the responsibility from you as stand operators.
