

CHECKLIST FOR EXHIBITORS AND STAND OPERATORS

The Coronavirus Protection Ordinance (Corona-Schutzverordnung) requires hygiene and infection protection measures for trade fairs. It is essential to **wear a medical mouth nose protection and to maintain the minimum distance of 1.5 m** throughout the trade fair grounds. Koelnmesse's **CH3CK** system ensures a safe visit to the trade fair by requiring everyone on the trade fair grounds to be either vaccinated against, recovered from, or tested negative for COVID-19. At stationary standing or sitting places, e.g. in meeting areas, the mouth nose protection can therefore be removed and the minimum distance must not be maintained.

Each stand operator will be responsible for implementing the necessary measures at the trade fair stand. We therefore recommend involving an experienced trade fair stand construction company or trade fair architect in the planning of your trade fair stand. Alternatively, Koelnmesse offers you individual trade fair stands that meet the specifications at numerous events. If you would like to learn more about Koelnmesse's stand construction service, please contact our Stand Construction Services Team (tel.: +49 221 821-3998, e-mail: standbau-services@koelnmesse.de).

In view of easing regulations and changes to the regulatory framework, we have summarized important recommendations and measures in a checklist to help you with your preparations. You should be able to answer these questions with "yes". Please refer to the FAQ section of the trade fair websites for further information.

Stand construction measures

- | | | | |
|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------|-----------------------------|
| 1 | Spacious stand planning with sufficient free space surrounding exhibits and counters allows visitors and stand personnel to maintain the minimum distance of 1.5 m from one another. | <input type="checkbox"/> yes | <input type="checkbox"/> no |
| 2 | Stationary standing or seating options are provided at counters or meeting areas. | <input type="checkbox"/> yes | <input type="checkbox"/> no |
| 3 | In the accessible areas, the stand does not have any insufficiently ventilated spaces, such as enclosed zones that are also covered overhead. | <input type="checkbox"/> yes | <input type="checkbox"/> no |
| 4 | Two-storey trade fair stands are open at the sides to ensure adequate ventilation. Stairways to upper floors are sufficiently wide or only used in a single direction. | <input type="checkbox"/> yes | <input type="checkbox"/> no |
| 5 | Counters, meeting tables and tables for food and beverage consumption have surfaces that are easy to wipe clean. | <input type="checkbox"/> yes | <input type="checkbox"/> no |
| 6 | We recommend fitting the trade fair stand's information counter with a partition. If a partition is in place, service personnel are not required to wear mouth nose protection. | <input type="checkbox"/> yes | <input type="checkbox"/> no |

Operation of the trade fair stand

- | | | | |
|----------|-------------------------------------------------------------------------------------------------------------|------------------------------|-----------------------------|
| 7 | General hygiene rules are observed. This includes refraining from shaking hands or making physical contact. | <input type="checkbox"/> yes | <input type="checkbox"/> no |
|----------|-------------------------------------------------------------------------------------------------------------|------------------------------|-----------------------------|

- 8 The maximum number of people at the trade fair stand has been calculated so that the minimum distance of 1.5 m can be maintained. At stationary standing or sitting places, e. g. in meeting areas, the minimum distance must not be maintained. yes no
- 9 The maximum number of people at the trade fair stand is monitored and controlled. yes no
- 10 Sufficient hand disinfectant is available for visitors and stand personnel. yes no
- 11 Surfaces that are often touched, such as counters, tables, showcases or exhibits, are cleaned as needed or whenever a new visitor arrives. yes no
- 12 Medical mouth nose protection is worn at the trade fair stand. The mouth nose protection may be removed in stationary standing or seating arrangements (this includes bar stools). yes no

Food service at the trade fair stand

- 13 The general hygiene regulations are observed during the preparation of food. yes no
- 14 In the case of open buffets and self-service offerings, the usual hygiene standards are taken into account. This means, for example, that sneeze guards are in place or that food is served by service staff. If the products are individually wrapped, self-service is permitted and no sneeze guard is required. yes no
- 15 Samples with and without packaging are permitted. In the case of self-service (e. g. from a tray with multiple samples), the sample is packaged. yes no
- 16 Tables at which food or beverages are served are wiped down with standard cleaning agents after each visitor. yes no
